

# SAN FRANCISCO PRIDE®

*March 9, 2020*

As many of you are aware, last week the San Francisco Department of Public Health (SFDPH) announced assertive recommendations for large gatherings to help reduce the spread of Coronavirus, or COVID-19, over the next two weeks.

San Francisco Pride continues to eagerly plan for our 50<sup>th</sup> annual Celebration and Parade, to be held on Saturday and Sunday, June 27-28. The safety of our communities is our main priority. We are working diligently with our partners and city agencies to ensure that our communities can enjoy the celebration in a healthy way.

Along with our friends at SFDPH, we ask everyone for now to follow the common-sense best practices that have been recommended, particularly for those in populations most vulnerable: <https://www.sfdph.org/dph/alerts/files/Public-Health-Recommendations.pdf>

San Francisco Pride will continue to monitor the developments of this emerging situation and will follow any directives from the City and SFDPH as they develop.
